Notebook Computer Skin

Model
475761

Give a notebook computer a wild new look.

A MANHATTAN Notebook Computer Skin can put a new perspective on mobile computing. These limited edition, faux animal designs help protect newer computers from minor daily hazards and refresh those with minor scratches and abrasions. Each MANHATTAN Notebook Computer Skin includes a special grid to help accurately fit, precisely trim and easily apply the image to most widescreen computers up to 15.4". Quickly remove or replace with a new MANHATTAN Notebook Computer Skin without PC damage or permanent residue to reflect a workspace, mood or venue.

Installation tip: Some notebook computer exteriors feature beveled edges, rounded corners and other special design characteristics that may affect full adhesion and a flat, secure installation. Consider deducting up to 2 cm (0.75 in.) from dimensions when trimming the product to compensate for these elements.
